

RMA45A

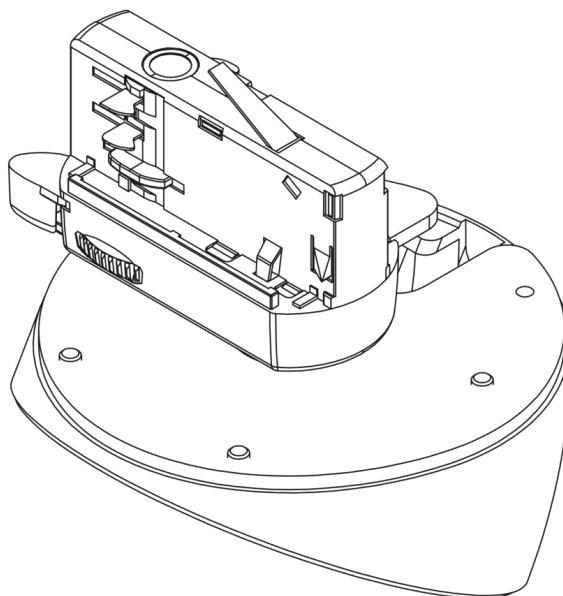

Light track adapter mount for ATEO4 - Smart 3-Phase Track

Highlights:

- Smart 3-phase lighting track system
- Adds an 30° angle
- Included WMA40 adapter
- Compatible with major brand lighting tracks

The RMA40A is an adapter for assembling ATEO4 loudspeakers* on lighting track rails which are commonly used in installations such as retail environments. It comes with an included WMA adapter, offering optimal possibilities for inclination in any direction. A mechanical connection is provided, without having any electrical connection between the loudspeaker and the lighting track rail. It is compatible with smart 3-phase lighting track rails from most major brands including Eutrac, Staff, Nordic, Global, Ivela and Stucchi.

*ATEO4 loudspeaker not included with RMA40A.

Variants:

- RMA45A/B - Black version
