

Highlights:

- Flexible structure for system integration & connectivity
- Wide variation of compatible modules available
- Stores 12 units of CASY modules on front & rear
- 19" Rack mountable (2 HE)
- 120 mm usable depth
- Pre-threaded mounting profile for easy assembly
- Aluminum extruded construction with steel side ears
- Structured and scratch resistant black powder coating

The CASY001 is a 19" rack mountable chassis which can be fitted with 12 modules from the CASY range. The flexible and modular structure ensures maximum versatility, allowing the system to be adapted to project specific requirements. Possibilities range from audio, video and data interconnection, to power distribution, internal rack supplies and many more. The aluminum top and bottom construction features pre-threaded hole inserts allowing module installation with a maximum of 12 units on both front and rear side. Modules can be fixed inside the unit using the included M3 screws, while the side ears are fitted with holes for fixation to a 19" equipment rack. The side ears are constructed out of cold-rolled steel with internal pillars for chassis grounding. The overall construction is finished in a black (RAL9004) structured and scratch resistant powder coating.

Product Features:

Dimensions	483 x 88 x 120 mm (W x H x D)	
Weight	1.480 kg	
Construction	Alu extrusion with steel side ears	
Module	Units	12 x front side & 12 x rear side
	Assembly	Pre-threaded M3 screw holes
Mounting	19" Rack mount (2HE)	
Finish	Structured powder coating	
Colours	Black (RAL9004)
